**PRIVATE WIRE SERVICE**  
**PROGRAM TRANSMISSION SERVICE**

---

**Item**  
**1005**    **CONDITIONS**

- A) A channel must not be connected with exchange, message toll or private line telephone equipment or wiring, with a signal, video or wired music channel leased by the Company, with teletype equipment or wiring or with a channel of the customer.
  
- B) Station equipment and station wiring on the customer's premises are to be provided, installed, owned and maintained by the customer except when the Company agrees to provide certain equipment and wiring. The amplification by the customer of the program material transmitted over the Company facilities must not interfere with other services provided by the Company.

**PRIVATE WIRE SERVICE**  
**PROGRAM TRANSMISSION SERVICE**

---

**Item****1005**    **CONDITIONS** (cont'd)

- C) The leasing of program transmission channels is subject to the availability of suitable facilities and to the requirements of the Company's exchange, message toll and private line telephone services. When it is necessary to install special equipment or to incur any unusual expense in order to meet special requirements of a customer, an additional charge may be made based upon the equipment installed or other unusual expense incurred.
- D) The minimum contract period is as indicated in the rates for the facilities except when the cost of construction is such as to necessitate a longer contract period. In the latter case the Company may require execution of a contract with a minimum period greater than one month.
- E) For multi-point extra-exchange service the mileage for all legs will be totalled. The initial quarter mile charge applies only once.
- F) Multi-point inter-exchange channels will be rated on a leg-by-leg basis (shortest total routing) each leg being rated as a two-point channel.

(D)
