		Monthly Rate Equipment		Service
		<u>Service</u>	<u>Spare</u>	<u>Charge</u>
1	Data Loop Converter (CDI-101)..... (Z)	\$ 17.10 (A)	--	Item 503
<p>The above unit interfaces data processing equipment and/or Teleprinter equipment using RS232 binary voltage signals with Telex or VFCT facilities, i.e., it converts binary voltage signals to DC current signals used on telegraph facilities. The CDI-101 is not speed or code-sensitive and is suitable for all signals up to 200 bauds.</p>
